### Application to ANCBC Fund

At the AGM in September a number of people agreed to become committee members for the John Corrie Garden, to identify work that needed to be done in the garden and to coordinate volunteers to carry out this work. A number of trees near the electricity lines had recently been removed, leaving an open area near the entrance to the garden. It was agreed that this was an ideal opportunity to update the planting and maintenance plan for the garden. By the end of October pathways had been made clearer using logs and wood chip from the felled trees and further planting was agreed.

As the John Corrie Garden is an asset made available to the community, it was agreed that we would start to publicise the garden more actively, to encourage people to come and enjoy it throughout the year. It was felt that by actively encouraging people to do this, it would be necessary to have public liability insurance in place in case of any accidents that might occur. Fundraising for the garden covers the cost of birdfood in the bird feeders, some planting and maintenance, and publicity materials but cannot meet the costs of the liability insurance without which we are unable to progress any plans to increase the community's appreciation and use of the Garden.

The three insurance quotes attached vary considerably. We feel that the cheapest quote from MG Underwriting of £147 (including broker's fee of £15) would be suitable, and hope that you will consider this application at the next meeting of the Community Council.

Yours faithfully

Sally Hughes

Secretary  
John Corrie Garden committee
